

OUTDOORING[®]

A THOUSAND AND ONE REASONS TO STAY HOME.

revi  LAPS AHEAD[®]

OUTDOORING[®], A TREVI LIFESTYLE

Before 2011, the offer in the garden furniture department was rather limited. Manufacturers mainly produced resin or cast aluminum chairs and tables.

In 2011, Trevi assigned itself the mission to revolutionize the way Quebecers enjoy their yards. In collaboration with an interior designer, the company created seven unique decors in an enclosed pavilion. By broadening the use of the enclosed pavilion to make it an extension of the home, Trevi has propelled a new trend: **Outdooring[®]**. This trend, which translates as the art of outdoor living, has met with phenomenal success and become a trademark of Trevi.

Over the years, **Outdooring[®]** has turned into a veritable lifestyle. The product offer has become much more diversified, and quality has greatly improved. Thanks to its expertise and sound advice, Trevi inspires everyone to create living spaces that reflect their image. The design possibilities are endless, and the season can now be extended from the end of March to the end of November!

Today, the **Outdooring[®]** collection doesn't just include pavilions. It also includes tables, chairs, living room sets, and more. Browse this brochure to discover the collection and get inspired to create the yard of your dreams.

1 Imagine Yourself in your Space

To create a yard that perfectly suits your needs, it's important to define how you want to use it. Depending on your interests and habits, you can create different zones: a relaxation area for comfortable reading, a spacious dining room to host family and friends, a lounge area to spend happy hours...

2

Respect the Style of your Home

Think harmony when choosing the materials and colors to decorate your outdoor space. This will enable you to create a zen and pleasant environment while avoiding any faux pas. Whether your home is Victorian, contemporary, or country, you're sure to find the right furniture to match your decor among our vast collection.

3

Choose your Furniture Wisely

Focus on quality, but don't compromise on comfort when it comes to choosing your garden furniture. The goal is to create an inviting, functional space that will encourage you to make the most of your yard.

Find out about maintenance needs. Whatever the quality, it's essential to take good care of your furniture to prolong its life. For example, some materials need to be treated periodically to preserve their original appearance.

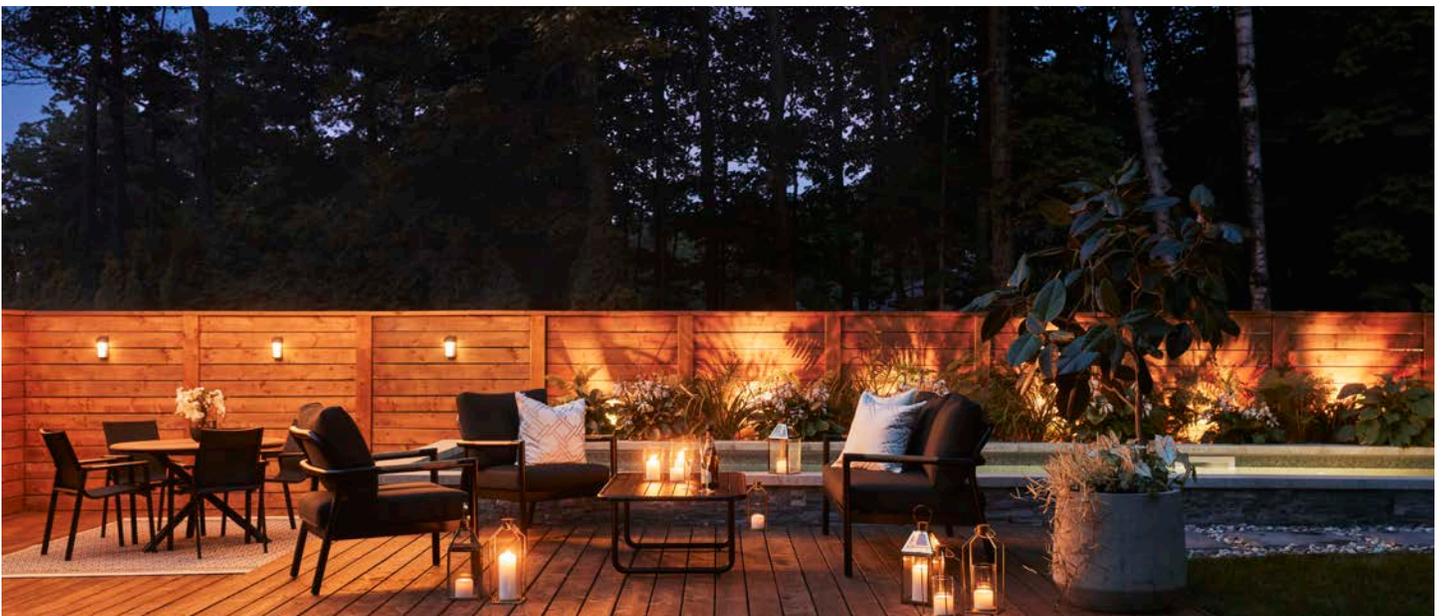

Make a lasting investment by opting for a timeless style. It's an ideal choice for greater design flexibility and ensures that your yard will always be up to date.

4

Think Beyond Summer

Installing an enclosed pavilion will allow you to live in your yard all year round, rain or shine. You can create a complete living space that will quickly become an extension of your home.

The addition of a furnished fireplace will also allow you to extend the season in comfort, and create a warm and welcoming atmosphere.

1

Create your Cocoon

By installing a pavilion, you can create privacy and enjoy your yard at all times. Our collection includes models of many styles and a vast choice of sizes to suit all types of spaces and projects.

This living area will allow you to make the most of your yard on rainy days, have a meal outside without inviting mosquitoes to your table, create a practical and inviting spa area; you can do whatever you want with it!

For even greater comfort, you can install a heating or air-conditioning unit, lighting, electrical outlets, etc.

2

Adopt the Outdooring® Lifestyle

Today, mental health and stress management are recurring topics. We live at neck-breaking speed and often forget to take care of ourselves. Take a break from the whirlwind of life with a yard designed on the principles of the Outdooring® lifestyle. Reconnect with nature, dine with your family, invite friends, take time for yourself, in your own bubble.
